

INTERACTIVE CYBERSECURITY TRAINING

Security Awareness Training That **Actually Sticks**

RansomLeak is an interactive 3D cybersecurity training platform where employees learn by doing, not watching. Immersive simulations covering phishing, ransomware, social engineering, AI threats, and regulatory compliance build lasting behavioral change across your organization.

100+

Interactive Exercises

Training Categories

3D

Immersive Simulations

100%

SCORM Compatible

Training Categories

Security Awareness

Phishing, social engineering, device security, passwords, workplace safety, and insider threats.

Privacy & Compliance Frameworks

GDPR, CCPA/CPRA, and HIPAA compliance with hands-on data protection and breach response drills.

AI & LLM Security

Prompt injection, deepfake attacks, LLM manipulation, and the OWASP Top 10 for LLMs and Agentic AI.

Real-World Incidents

Walk through actual breaches including MGM Resorts, BEC fraud cases, and supply chain attacks.

Platform Features

Interactive 3D Simulations

Employees practice inside realistic scenarios, not passive videos. Learning by doing builds lasting muscle memory.

SCORM 1.2 & 2004

Export exercises as SCORM packages for any LMS. Track completions, scores, and time spent natively.

Real-Time Analytics

Track employee progress, identify knowledge gaps, and generate compliance reports for auditors.

Campaign Management

Build custom learning paths, schedule campaigns, and assign exercises to teams or departments.

SSO & MFA

Enterprise-grade authentication with single sign-on and multi-factor authentication support.

Gamification

Points, badges, and leaderboards drive engagement. Employees compete and learn at the same time.

Technical Specifications

DEPLOYMENT

- Cloud-hosted SaaS platform
- SCORM 1.2 / 2004 export
- Multi-tenant architecture
- SSO (SAML 2.0, OIDC)
- REST API available

LMS INTEGRATION

- Any SCORM-compliant LMS
- Cornerstone OnDemand
- SAP SuccessFactors
- Workday Learning
- Moodle, Canvas, Docebo

CONTENT

- 100+ interactive exercises
- Monthly new content releases
- Custom content development
- Multi-language support
- Branded portal option

Use Cases

Security Awareness Training

Compliance Training (GDPR, HIPAA)

Phishing Resilience

New Hire Onboarding

Incident Response Drills
